# GLASS TOWER

## SLEEK, MINIMAL MODERNISM

Glass Tower is inspired by the glass and steel architecture of Los Angeles, New York, Shanghai, and modern urban centers around the world. Lines are razor sharp and shapes are rectilinear, creating a sense of order and form. The high-gloss finishes and clean designs found in this home are the fundamentals of modern luxury.

Glass Tower is for those who dream of big-city vacations, touring Google's headquarters, or testing out the latest in home automation. Inspiration comes from all that is new and innovative, and it shows in this beautiful modern style.

# KEY ELEMENTS

The Glass Tower home was thoughtfully crafted and curated using beautiful modern elements. Concrete luxury vinyl plank flooring and sparkling white quartz are paired with chrome hardware and bright white high-gloss cabinets. Clean lines, a monochromatic palette and chrome accents create a high-style, contemporary home that allows you to make your mark.
