# NEW NORDIC

## INVITING, MINIMAL LIVING

New Nordic is our take on mid-century modern Scandinavian design. White upper cabinets blend seamlessly with the wall colour to create an airy and bright space, while the horizontal grain base cabinets and hand-sculpted wood flooring provide warmth and visual texture. Black accents found in the lighting and door hardware throughout the home add a bold contrast to the natural beauty of this style.

# KEY ELEMENTS

The New Nordic home was thoughtfully crafted and curated. Classic Scandinavian elements like white walls and black fixtures are paired with hexagonal tiles for a stylish design that will look fresh for decades. White oak floors and natural grain wood cabinets give this look an organic feel, while matte black accents provide a youthful edge.
